Company Overview

Shahdina Trading Company has been established to produce and supply various types of date as well as grape syrups. Using the latest equipment and technology in the world, this company produces its products with the best dates and grapes and offers them to local and global markets. Our products are completely organic and contain no minerals or additives. In addition, by implementing all global standards, we have succeeded to receive international certificates of hygiene and quality.
Shahdina Trading Company has always strived to provide dear customers with the highest quality and variety.

**Business description**

Just like date fruits, date syrups are highly nutritious for the body; They contain phosphorus and iron and if consumed at breakfast, they will provide a high amount of energy, and will also activate nerve cells and prevent anemia, hence a strong immune system for the body.
Date syrups come in different types depending on the kind of dates they are made from, and are best produced in the Middle East due to its specific climate and the abundance of palm trees in this area of land. Date syrup export enjoyed an average annual growth of 5% and reached $ 376 million in 2020, which indicates an increasing export potential in the following years. Grape syrups are said to be the most demanded among other syrups. They can be obtained from grapes and also raisins.

Having more calories than grapes, grape syrups are rich in calcium, iron, magnesium, phosphorus, potassium, carbohydrates, etc. Due to the favorable climatic and fertile soil, more than 100 different types of grapes are cultivated in the Middle East, about half of which are suitable for the production of grape syrups. Shahdina Trading Company strives to produce the largest variety of date syrup as well as grape syrup in order to maximize customer satisfaction around the globe.
Vision and Values

Shahdina Trading Company will always be an efficient, modern, customer-oriented and knowledge-based enterprise, which will always produce the best date and grape syrups using the most modern industrial equipment. We guarantee the quality of our products confidently since we have a constant supervision over all production, packaging, and delivery stages. This company intends to become the top largest manufacturer and supplier of various types of date and grape syrups in the world.
Mission and Targets

In order to achieve our most important mission, maximum customer trust and satisfaction, we will spare no effort to reach the following goals:

1- Using the best fruits in the Middle East to produce the best date and grape syrups
2- Utilizing and updating industrial equipment and production machinery to maintain industrial progress
3 - Creating suitable and hygienic storage conditions for the products
4- Obtaining various health and quality certificates to guarantee the quality of products
5- Applying a constant evaluation over all products to maintain improvement
6 - Creating a wide distribution network around the world to provide the most convenient delivery
7- Guaranteeing the price and quality of the products in competition with other brands
8- Scientific marketing to maintain competition with the global markets
Message from CEO
In order to maximize customer trust and satisfaction, we will maximize our quality and multiply our production. We will always maintain an active role in the global market using an integrated management system (IMS), and we will always observe the OHSAS18001, ISO14001 and ISO9001 standards in our production, packaging, and delivery stages. In order to maintain quality in cultivation, harvest, production, packaging, and delivery, we will always observe all the global principles and standards of hygiene, and constantly consult health experts and specialists.
